

Journal of Mathematical Modelling and Application

Maria Salett Biembengut

Dear Colleagues, it is an honor to announce the first issue of the Journal of Mathematical Modelling and Application of the Reference Center for Mathematical Modelling in Teaching – CREMM. The first issue is online at www.furb.br/modelling. If you want to submit a paper, look at the information in this address.

Journal of Mathematical Modelling and Application

The Journal of Mathematical Modelling and Application is a publication of the Reference Center for Mathematical Modelling in Teaching (CREMM) linked to the Graduate Program in Education of Natural Sciences and Mathematics (PGE-CIM/FURB).

The System for Electronic Publishing Journals (SEER), adapted by the Open Journal Systems (OJS) is the base for this Journal. This free software, developed by the University of British Columbia Canada, aims to assist in the publishing of scientific journals in each of the stages of the process from the submission and evaluation of consultants by the publication and its online index.

Vol 1, No 1 (2009)

Table of Contents

Editorial

Introduction (Nelson Hein)

A Mathematical Approach to the Plato's Problem (Luiz Bevilacqua, Adilson J. V. Brandão, Rodney C. Bassanezi)

Mathematical Modeling and Knowledge Transference (Patricia Camarena Gallardo)

Transition Across Levels In The Process Of Learning: A Fuzzy Model (Michael Gr. Voskoglou)

Mathematical Modelling: Can It Be Taught And Learnt? (Werner Blum, Rita Borromeo Ferri)

Gender Aspects of Sense Making In Word Problem Solving (Torulf Palm, Peter Nyström)

Mathematics for Society, Industry and Innovation (Matti Heilio)

Mathematical Modeling: Cognitive, Pedagogical, Historical And Political Dimensions (Ubiratan D'Ambrosio)
